SC PUBLIC SERVICE
COMMISSION

RECEIVED

Dear Mr. Terreni:

In its notice about the Public Service Commission (PSC) hearing scheduled to begin on October 27, 2008 (Docket No. 2008-196-E), SCE&G fails to explain that the Company has petitioned the PSC requesting permission "to conduct clearing, excavation and perform construction work" in preparation for building and operating a two (2) 1,117 megawatt nuclear facility near Jenkinsville, South Carolina.

I object to this step in SCE&G's massive nuclear proposal being allowed to go ahead without the consideration and public review which would take place at the PSC hearing of October 27, 2008.

Please deny this petition and require SCE&G to include site preparation and construction work and other such activities at the 2008-196-E Docketed proceeding.

Sincerely,

Merill Truesdale
